INSTITUTION SUPPLEMENT NO: MCK 1640.3 -SMOKING AND NON-SMOKING AREAS
issued December 8, 1997 stated inter alia that

Staff: FCI, McKean and FPC, McKean have been designated as non-smoking institutions. Staff are prohibited from smoking inside of buildings or entrance-ways of the camp facility or main institution.

Notwithstanding this designation, and because of the profit generated from tobacco products BOP FCI-McKean staff continue to negligently pump secondhand smoke inside the housing units and at all the entrance of all buildings in McKean, to include but not limited to the health services and staff continue to negligently sale tobacco products to smoking-inmates at unprecedented high level. BOP FCI-McKean staff negligently distribute tobacco products to the inmate general population than any other items sold in inmate commissary.

Notwithstanding the amount of tobacco products BOP FCI-McKean staff negligently pump into the inmate general population, and more importantly, and most significantly, notwithstanding the fact that BOP FCI-McKean staff knew the unprecedented health problems caused by Environmental Tobacco Smoke (ETS), BOP FCI-McKean staff have negligently refused to control and/or separate the smoking-inmate and the smoking-staff, from non-smoking inmates. BOP McKean staff have negligently refused to house non-smoking-inmates in a separate housing unit from smoking staff and inmates. BOP McKean staff have negligently refused to stop selling tobacco products in the inmate commissary because of the unprecedented high profit BOP staff generate from tobacco products.

BOP McKean Warden have negligently refused to instruct his staff not to smoke inside the housing units and all buildings in McKean nor did he tried to stop the inmates from smoking in all areas of the units.

In FCI-McKean BOP staff have forced and continue to force me to breath only one type of air, i.e. secondhand smoke (ETS). No alternative. Since January 2003, to present date, and continue, the unprecedented amount of ETS in FCI-McKean caused by staff and inmate smoking and also cause by all aforementioned staff actions, have caused me to suffer and continue to cause me to suffer and will cause me to suffer in the future bronchogenic carcinoma or lung cancer of all types; chronic obstructive pulmonary disease of all types, including emphysema,

chronic bronchitis, and reversible airway obstruction; cardiovascular disease including irreversible hardening of the arteries (atherosclerosis) and its consequences, including myocardial infarction (heart attack); cerebrovascular accident (stroke), peripheral vascular diseases, aneurysm/other conditions; cancers of the kidney, bladder, brain, larynx, oral cavity, esophagus, pancreas, stomach, cervix, breast and other organs; impairment of lung function; Peptic ulcer, tuberculosis, dizziness, chronic headaches, watery eyes, ear infections, memory loss, depression, intrauterine growth retardation, infertility, and other conditions, including psychological problems; emotional disorder; insanity; psychopathic behavior; psychosis; paranoia; shock; fear; mental depression, sleeplessness; shortening of life expectancy; irreversible health problems; fear of subsequent disease and/or complication, from injury; loss of enjoyment of life; anxiety from fear of disease; neurosis or depression - distress or worry and grief from fear of disease; current and future pain and suffering from mental and physical injury; and other types of damages.
